

Welcome to our French class newsletter!  
I'm excited to share what the students have been learning and experiencing. Our classroom is a joyful place where language comes alive through creativity, movement, and hands-on activities.

### French Cooking

- Exploring Simple Recipes and Culture.

Our students have been exploring French culture in a delicious and hands-on way through simple cooking activities!

### Bilingual Books

- Building Confidence in Both Languages.

Our use of bilingual books in the classroom is helping students grow more confident in both French and English! By reading stories that include both languages, students are able to make connections, recognize familiar words, and gradually build their understanding in a natural and supportive way.

This approach encourages participation, strengthens comprehension, and helps students feel successful as they navigate between the two languages. Most importantly, it fosters a love for reading while making language learning enjoyable and accessible for everyone.

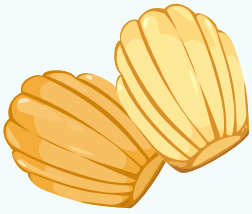

### Toys & Hands-On Learning

- Learning through Play and Exploration

Toys and hands-on learning play an important role in helping students connect with the language in a meaningful way. Through play-based activities like building, sorting, role-playing, and interactive games, students naturally practice French vocabulary and expressions while staying engaged and curious.

### Music & Movement

#### - Songs That Make Learning Memorable

Music and movement are a joyful part of our French class, helping students learn in a way that is both engaging and memorable!

Through songs, rhythms, and movement activities, students are introduced to new vocabulary, pronunciation, and expressions in a natural and fun way. Singing and dancing not only reinforce language skills but also build confidence and participation, especially for younger learners.

These experiences help students retain what they learn while creating a positive and energetic classroom environment where language truly comes to life.

### Interactive Workbook

#### - Practicing Skills in an Engaging Way

Our interactive French workbook provides students with a fun and engaging way to practice and reinforce what they learn in class. Through a variety of activities such as matching, coloring, tracing, and simple writing exercises, students build their vocabulary, improve comprehension, and gain confidence in their language skills.

The workbook is designed to support different learning styles while keeping students motivated and involved. It's a wonderful tool that allows them to review concepts at their own pace while making learning French both enjoyable and meaningful.

We are learning, laughing, and growing together as we navigate the French language!
